

## SERIES 42, 43, 44 and 54

### 1" Diameter, 1 Amp, Standard, Military SR04

#### FEATURES

- Rugged Construction Ensures Switch Operation for the Life of Your Equipment
- Many Circuitry Options
- MIL Qualified Versions MIL-S-3786/04
- Features Choice Include: Shaft/ Panel Seal, Adjustable Stops, PC Termination, UL Recognized

#### DIMENSIONS in inches (and millimeters)

##### Standard, UL Recognized and Military Qualified Solder Lug Styles

##### Rear Views

###### Series 42

###### Series 44

For rear view of 45°, 60° and 90°, see circuit diagram.

No. of Decks	Dimension A	Dimension B		Approx. Weight Grams		No. of Decks	Dimension A	Dimension B		Approx. Weight Grams

90° Angle  
of Throw

## SERIES 42

1" Diameter, 1 Amp, PC Mount

### FEATURES

- Satisfies High Current Board Level Applications
- 36° Angle of Throw Permits up to Ten Positions
- UL Recognized Versions

### DIMENSIONS in inches (and millimeters)

### CIRCUIT DIAGRAM: PC Mount

### PC BOARD MOUNTING PATTERN

### SHAFT AND PANEL SEAL: Srs. 42 & 44

### ADJUSTABLE STOP SWITCHES: Series 42 and 44

The standard and UL recognized switches are also available with adjustable stops. Two removable stop washers allow you to limit the number of switch positions as needed. A knurled nut is supplied to secure the washers if desired. *These switches have no bushing keyway.* All other dimensions, ratings and characteristics are the same as the standard fixed stop styles. Although not military qualified, the adjustable styles are useful in military equipment prototypes. However, when submitting the equipment for government approval, the fixed stop qualified style should be substituted.

**Equivalent Styles**

For style 42A36, use 42D36,  
For style 44A30, use 44D30  
For style 42M36, use 42D36 initially

For style 44M30, use 44D30 initially  
For style 42U36, use 42UD36  
For style 44U30, use 44UD30

Series 42

Series 44

USE OF KNURLED NUT IS OPTIONAL

ADJUSTABLE STOP WASHERS

## SERIES 43 and 54

1" Diameter, 1 Amp, Add-A-Pot

### FEATURES

- Central Shaft Designed to Operate an Add-On Potentiometer
- Potentiometer Mounting Plates Provided
- Adjustable Stop Standard, Fixed Stop by Order
- Choice of 10 Positions (Series 43) or 12 Positions (Series 54)

### DIMENSIONS In inches (and millimeters)

#### Standard Style

##### Series 43

#### Rear Views

##### Series 43

##### Series 54

**Note:** Common location for a single pole per deck switch. For common location on multi-pole switches, see circuit diagrams.

Number of Decks	Dimension A	Approx. Weight Grams	
		Series 43	Series 54
1	.974 (24,74)	48	60
2	1.320 (33,53)	54	67
3	1.666 (42,32)	60	74

##### Series 54

Two potentiometer mounting plates are supplied. Mounting plates have .261 (6,63) and .380 (9,65) diameter holes respectively for mounting potentiometers with 1/4" and 3/8" bushings. Additional nuts for the through bolts of the switch are provided for adjustment of mounting plate location. Tapered tongue on 1/8" shaft provides coupling to screwdriver slots in potentiometer shafts.

Plated brass spacers for ease of positioning mounting plate driving assembly are available on special request (sold only with switches). The use of spacers is recommended for other than prototype requirements. When ordering switches with spacers, give full details regarding special length, potentiometer being used, etc.

Standard style, concentric shaft, add-a-pot switches have adjustable stops. See Adjustable Stop description.

Grayhill part number and date code marked on detent cover label. Customer part number marked on request. Military part number marked when required.

## 1" Diameter, 1 Amp, Add-A-Pot

- Military Qualified MIL-3786/04
- Central Shaft Designed to Operate MIL Potentiometer
- Mounting Plate Options Provide Choice of Potentiometer
- Fixed Distance from Switch to Mounting Plate

### Military Qualified Style

Number of Decks	Dimension A	Approximate Weight Grams
1	1.024 (26,01)	60
2	1.370 (34,80)	67
3	1.716 (43,59)	74

Grayhill part number and date code marked on detent cover label. Customer part number marked on request. Military part number marked when required.

The two mounting plates shown below are supplied with each switch.

## MILITARY QUALIFIED

### Single Shaft Switches

The military styles of the single shaft Series 42 and 44 rotary switches are qualified to MIL-DTL-3786/4, specifically SR04-1. Qualification includes two temperature ranges. Unsealed styles M, MB, MG and MBG are qualified for -65 to 85°C. Unsealed styles H, HB, HG and HBG, plus sealed styles HS, HBS, HGS and HBGS are qualified for -65°C to 125°C. Qualification includes low level switching and shaft grounding as specified in MIL-DTL-3786. Qualification includes 30°, 36°, 45°, 60° and 90° angles of throw with solder lug terminals. The military styles are dimensionally the same as the standard styles with two exceptions. The location of the common for the 3-pole switch differs (see circuit diagrams) and the non-turn tab for styles HS, HBS, HGS and HBGS differs per the Shaft and Panel Seal description following.

### Two Switches, Concentric Shafts

The M style of the concentric shaft Series 43 and 54 switches is qualified to MIL-DTL-3786/4,

specifically SR04-2. Unsealed switches are qualified for -65°C to 85°C in 30°, 36°, 45°, 60° and 90° throws. The standard and military styles of the concentric switches have the same dimensions with the exception of the location of the 3 pole common (see circuit diagrams). The 30° and 36° throws are described in the ordering information. If the 45°, 60° and 90° throws are required, they can be provided in Section A of the Series 54 Rotary Switches; see Standard Options, page J-9.

### Add-A-Pot Switches

The military style of the add-a-pot Series 54 switch is qualified to MIL-DTL-3786/4, specifically SR04-3. These unsealed switches are qualified for -65°C to 85°C in 30°, 45°, 60° and 90° throws. The dimensions of the military style add-a-pot switches are not the same as the standard add-a-pot switches; see drawings.

### All Qualified Switches

Complete electrical ratings and characteristics for all of these qualified switches are listed on

the following pages. Standard variations such as terminals, shaft and/or bushing length etc., which do not affect performance, can be marked as qualified product. Adjustable stops cannot be qualified. Contact Grayhill for details about variations.

Military qualified switches may be ordered by the military M number listed in MIL-DTL-3786/4 or by the Grayhill part number. They will be marked to specifications.

## MILITARY QUALIFIED SHAFT AND PANEL SEAL:

### Styles HS, HBS, HGS and HBGS

The shaft is sealed to the bushing by an internal O-ring per MIL-P-5516B. The bushing is sealed to the panel with a silicone rubber washer and a stainless steel backing washer. The combined uncompressed thickness is 0.055" (1.40). Since this switch has a flat cover, a non-turn washer is supplied (see Panel Seal Kit). If using it, mount it in front of the panel.

## SPECIFICATIONS:

### Electrical Ratings

#### Standard Style

**Rated:** To make and break the following loads:

	Angle of Throw		
	30° or 36°	45° or 60°	90°
115 Vac resistive	1 amp	5 amps	5 amps
6-28 Vdc resistive	1 amp	1 amp	2 amps
115 Vac inductive	0.25 amp	2 amps	2 amps
115 Vdc inductive	0.02 amp	—	—
6-28 Vdc inductive	0.10 amp	—	—
115 Vdc resistive	0.10 amp	—	—

To carry 10 amps continuously.

**Contact Resistance:** 50 milliohms maximum

**Insulation Resistance:** 1,000 megaohms minimum

**Voltage Breakdown:** 1,000 Vac initially (500 Vac or better after most environmental tests)

**Life Expectancy:** 100,000 mechanical cycles of operation. *Note:* Actual life is determined by a number of factors, including electrical loading, rate of rotation and environment, as well as maximum voltage breakdown required at the end of life.

### UL Recognition—

#### Styles UA, UD, UM, UP, US and USP

Grayhill styles A and M and their variations (D, P, S and SP) of the Series 42, 43, 44 and 54 rotary switches have been tested by Underwriters Laboratories. The letter U in the style indicates proper marking as required by Underwriters Laboratories. These switches are recognized under file number E35289. The UL rating for the Series 42, 43, 44 and 54 is as follows:

**Electrical Parameters:** style UA = 1.0 ampere at 125 Vac. Style UM = 1.0 ampere at 125 Vac and also .5 ampere at 125 Vac, inductive load, 0.75 to 0.8 power factor.

Rating based on the following criteria:

**Overload:** 50 operations at 150% rated AC load

**Endurance:** 6000 operations at the rated load with 1000 Vac dielectric strength before and after test

**Temperature Rise:** Not to exceed 30°C when carrying rated AC load after test.

*Note:* all dimensional drawings for the standard style Series 42, 43, 44 and 54 also apply to these switches, with the exception that switches are marked per specifications.

### Electrical Ratings

#### Military Style

**General Rating:** This rating is based on standard Grayhill tests of the Military style switch done at ambient conditions. It is provided for comparison to the Standard Style switch.

Charts shown for non-shorting contacts (break before make)

**Voltage and Load:** As listed in the chart One cycle is 360° rotation and a return through all switch positions to the starting position. The data for the curves was measured at sea level, 25°C and 68% relative humidity.

The Series 42, 43, 44 and 54, style M, H and HS switches are made to meet requirements of MIL-DTL-3786, style SR04. Diallyl phthalate molded parts and the design of internal switching elements provide exceptional performance.

Curves shown are typical load-life curves for Series 42, 43, 44 and 54, style M, H and HS switches with 30° or 36° angles of throw. They show the numbers of cycles of rotational life expectancy for the types of loads shown. Thus, with a 5 amp, 115 Vac resistive load, 10,000 cycles of life is expected. If the load is reduced to 3 amps, life is increased to 25,000 cycles. The larger angles of throw (45°, 60° or 90°) switch larger currents for a like number of cycles.

Life limiting or failure criteria for these curves are:

**Contact Resistance:** 50 milliohms maximum

**Insulation Resistance:** 1,000 megaohms minimum between mutually insulated parts

**Voltage Breakdown:** 1,000 Vac minimum between mutually insulated parts. These switches will carry 10 amps with maximum contact temperature rise of 20°C. Life can be predicted by Grayhill if less critical life characteristics, elevated temperature or reduced pressure is involved.

## MIL-S-3786 Electrical Values Military Style

## SPECIFICATIONS:

Style M switches, at 85°C, approximately 68% humidity and sea level pressure and style H and HS at 125°C have been tested to make and break the following loads as stated in MIL-DTL-3786/SR04; 250 milliamperes at 28 Vdc resistive, 100 milliamperes at 28 Vdc inductive (2.8 henries); 75 milliamperes at 115 Vac resistive.

These switches have also been tested at reduced barometric pressure (70,000 feet), 25°C at approximately 68% relative humidity to make and break the following loads as stated in MIL-DTL-3786/SR04; 200 milliamperes, 28 Vdc resistive; 25 milliamperes, 28 Vdc inductive (2.8 henries); 20 milliamperes, 115 Vac resistive. When tested to these loads and conditions the style M, H and HS switches meet the following life limiting or failure criteria after 25,000 cycles in accordance with MIL-S-3786.

**Contact Resistance:** 50 milliohms maximum

**Insulation Resistance:** 1,000 megaohms minimum between terminals and shafts

**Dielectric Strength:** 1,000 Vac (atmospheric pressure) and 450 Vac (reduced pressure) minimum between mutually insulated parts.

When tested at sea level 25°C and 68% relative humidity with failure criteria of 50 milliohms max. and 750 Vac breakdown voltage, these switches will make and break the following loads: 250 mA at 28 Vdc, inductive (2.8 henries); 1.25 amps at 28 Vdc resistive; 2.0 amps at 115 Vac, 60 Hz resistive, for 10,000 cycles.

These switches also meet MIL-DTL-3786/SR04 for moisture resistance, medium and high shock, vibration (10 to 2000 cps), thermal shock (-65°C to 125°C), salt spray, explosion and terminal pull.

### Materials and Finishes

#### Standard Style

**Bases:** Melamine per (MIL-M-14) ASTM-D-5948

**Cover, Deck Separators, End Plate and Rotor Mounting Plate:** Phenolic per (MIL-M-14) ASTM-D-5948

**Mounting Bushings:** Brass, tin/zinc-plated.  
**Shaft, Cover Plate, Retaining Rings, Through Bolts, Shaft Extensions, Stop Arm, Thrust Washers Stop Washers and Rear Support Plate:** Stainless Steel

**Detent Balls:** Steel, nickel-plated

**Detent Springs:** Tinned music wire

**Rotor Contact, Stator (Base) Contacts:** Silver alloy

**Terminals (Except Common):** Brass, tin plated

**Common Plate, Including Solder Lug:** Brass, silver-plated .0003" minimum

**Mounting Hardware:** Two mounting nuts .094" (2,39) thick by .562" (14,27) across flats and one internal tooth lockwasher are supplied with each switch.

**Stud Nuts, Mounting Nuts, Lock Washers:** Tin/zinc-plated or stainless steel.

### Materials and Finishes

#### Military Qualified

**Bases:** Diallyl per (MIL-M-14) ASTM-D-5948

**Cover, Deck Separators, End Plate and Rotor Mounting Plate:** Diallyl per (MIL-M-14) ASTM-D-5948

**Mounting Bushings:** Brass, tin/zinc-plated.

**Shaft, Cover Plate, Retaining Rings, Through Bolts, Shaft Extensions, Stop Arm, Stop Washers, Thrust Washers and Rear Support Plate:** Stainless steel

**Detent Balls:** Steel, nickel-plated

**Detent Springs:** Tinned music wire

**Rotor Contact:** Silver alloy

**Terminals, Common Plate including Solder Lug:** Brass, silver-plated .0003" minimum

**Mounting Hardware:** Two mounting nuts .094" thick by .562" across flats and one internal tooth lockwasher are supplied with each switch.

**Stud Nuts, Mounting Nuts, Lock Washers:** Tin/zinc-plated or stainless steel.

### Additional Characteristics

#### Standard Style and Military Qualified

**Contact:** Shorting or non-shorting wiping contacts with over 150 grams of contact force

**Rotational Torque:** 8-115 ounce-inches depending upon the number of poles per deck, number of decks and angle of throw

**Mechanical Life Expectancy:** 100,000 cycles of operation

**Shaft Flat Orientation:** Flat opposite contacting position of pole number one (See circuit diagram).

**Stop Strength:** For Standard style: 15 pound-inches minimum. For Adjustable stop styles: 12 pound-inches

**Extended Stud:** Single shaft switches of six or more decks and concentric shaft switches of a combination of five or more decks (Standard style) or four or more decks (Military style) have longer studs with extra mounting nuts for recommended double end mount.

## CHOICES AND LIMITATIONS: Series 42, 43, 44 and 54

A = Standard, Solder Lugs  
P = Standard, PC Mount Terminals  
D = Standard, Adjustable Stops

S = Shaft and Panel Seal  
U = UL Recognized  
M = Military Qualified 85°C<sup>4</sup>

H = Military Qualified, 125°C  
B = Military, Grounded Shaft  
G = Military, Low Level Rating

54	D UD	30°	01 thru 03 01 thru 03	1 2	AJ (2-12) <sup>1</sup> AJ (2-6) <sup>1</sup>	N or S N or S	Second shaft operates a potentiometer supplied by the customer. Rear mounting plates are provided.			
43		36°	01 thru 03	1	AJ (2-10) <sup>1</sup>	N or S				
54	M	30°	01 thru 03 01 thru 03	1 2	02 thru 12 <sup>5</sup> 02 thru 06	N or S N or S				

<sup>1</sup>For Adjustable Stop (with the letter D), use AJ instead of number of positions when ordering.

<sup>2</sup>For 45°, 60° or 90° throws in Series 54 switches of these styles, see Standard Options.

<sup>3</sup>For single pole switches with the maximum positions per pole, continuous rotation is possible. Specify fixed stop or continuous rotation when ordering single shaft switches. Concentric shaft switches have continuous rotation.

<sup>4</sup>Styles which include both M and S are not qualified but are made of the same materials and construction as qualified types. For qualified switches with shaft and panel seal, use equivalent HS style.

<sup>5</sup>UM switches are made of the same materials and construction as the M style switches. For military switch UM is not required; use M style.

## ACCESSORIES

**Internal Tooth Lockwasher—Figure A**

For a  $\frac{3}{8}$ " bushing. Approximately 0.500" (12,7) outside diameter, .022" (0,56) thickness. Material is cadmium-plated steel. **Part No. 12Q1272-1**

For a  $\frac{1}{4}$ " bushing. Approximately 0.400" (10,16) outside diameter, .018" (0,46) thickness. Material is steel, tin/zinc plated.

FIGURE A

**Non-Turn Washer—Figure B**

Can be ordered as extra hardware for the Series 5000, 24, 42, 43, 44, 54, 71B, 53, 57 and 59 rotary switches. The internal key of the washer slides into the bushing keyway. The right angle tab locks into a predrilled hole on the back side of the mounting panel. Material is brass, tin/zinc plated. **Part No. 12C1087-1**

**Panel Seal Kit—Figure C**

Sold as a separate item to seal the switch

bushing to the panel. The kit consists of four items: a grooved hex nut, a keyed washer, a keyed seal and a non-turn washer. Assembly is described on Page J-53. Dimensions of panel seal kit items are shown in Figure C. This kit seals the bushing to the panel; it does not seal the shaft to the bushing. Not usable with adjustable stop switches. **Part No. 42-24**

## ORDERING INFORMATION: Single Shaft Switches, Add-A-Pot Switches

44M30-02-1-12N-F

**Series:** Determined by the type of switch and the angle of throw

**Style\*:** Letter(s) from the Choices and Limitations chart

Angle of Throw: Must agree with Series Number

**Number of Decks:** As limited by the angle of throw, the poles per deck, switch style and type of contacts

**Stop Arrangement:** Add letter F to a one pole per deck switch with the maximum number of positions for a stop between position 1 and the last position. Leave blank for continuous rotation

**Type of Contacts:** N = Non-shorting; S = Shorting

**Positions Per Pole:** Requires 02 positions as a minimum to maximum allowable dependent on the angle of throw and poles per deck. Use AJ for adjustable stops (Styles D and UD).

**Poles Per Deck:** As limited by angle of throw, switch series and style

\* All rotary switches that are required to have military designated markings and testing adhering to MIL-3786 are to be ordered by specifying the military part number identified on the appropriate slash sheet.

## ORDERING INFORMATION: Concentric Shaft Rotary Switches

43M02110N-M03203S

**Series:** Determined by the angle of throw, applicable to both sections

**Style\*:** Letter(s) from the Choices and Limitations chart

**Section A (front)**

**Number of Decks:** As limited by the number of poles per deck

**Poles Per Deck:** As limited by the angle of throw

**Positions Per Pole:** Requires 02 positions as a minimum to the maximum allowable dependent on the angle of throw and the poles per deck

**Type of Contacts:** N=Non-shorting, S=Shorting. All one pole per deck switches with the maximum number of positions are continuous rotation

**Section B (rear)**

The limitations listed for Section A apply to Section B

**Type of Contacts**

**Positions Per Pole**

**Poles Per Deck**

**Number of Decks**

**Style**

\* All rotary switches that are required to have military designated markings and testing adhering to MIL-3786 are to be ordered by specifying the military part number identified on the appropriate slash sheet.

Available from your local Grayhill Distributor

**Стандарт  
Электрон  
Связь**

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.

С нами вы становитесь еще успешнее!
