

800MHz BAND FRONT-END GaAs MMIC

■GENERAL DESCRIPTION

NJG1704KC1 is a front-end GaAs MMIC including a LNA, a local amplifier and a mixer, designed mainly for 800MHz band cellular phone handsets.

The ultra small & ultra thin FLP10-C1 package is applied.

■PACKAGE OUTLINE

NJG1704KC1

■FEATURES

- Low Voltage Operation +2.7V typ.
- Low Current Consumption LNA 3.1mA typ.
Mixer 6.1mA typ. (with local amplifier operation current)
FLP10-C1 (Package size: 3.0x2.8x0.75mm)
- Ultra Small & Ultra Thin package
- LNA
 - High Small Signal Gain 16.5dB typ. @ $f_{RF}=820\text{MHz}$
 - Low Noise Figure 1.4dB typ. @ $f_{RF}=820\text{MHz}$
 - High Input IP3 -4.0dBm typ. @ $f_{RF}=820.0+820.1\text{MHz}$
- Mixer
 - High Conversion Gain 12.5dB typ. @ $f_{RF}=820\text{MHz}$, $f_{LO}=690\text{MHz}$, $P_{LO}=-10\text{dBm}$
 - Low Noise Figure 5.0dB typ. @ $f_{RF}=820\text{MHz}$, $f_{LO}=690\text{MHz}$, $P_{LO}=-10\text{dBm}$
 - High Input IP3 +1.0dBm typ. @ $f_{RF}=820.0+820.1\text{MHz}$, $f_{LO}=690\text{MHz}$, $P_{LO}=-10\text{dBm}$

■TERMINAL INFORMATION

No.	SYMBOL	FUNCTION
1	LNAIN	RF input terminal of LNA. An external matching circuit is required.
2	LNACAP	Terminal for the bypass capacitor of LNA. The bypass capacitor C1 as shown in test circuits, should be connected to this terminal as close as possible.
3	GND	Ground terminal(0V)
4	IFOUT	IF signal output terminal. The IF signal is output through external matching circuit connected to this terminal. Please connect inductances L7, L8 and power supply as shown in test circuits, since this terminal is also the terminal of mixer power supply.
5	VLO	Power supply terminal for local amplifier. Please place R1 and L10 as shown in test circuits at very close to this terminal.
6	LOIN	Local signal input terminal to local amplifier. An external matching circuit is required.
7	GND	Ground terminal(0V)
8	MIXIN	RF signal input terminal to mixer. An external matching circuit is required.
9	GND	Ground terminal(0V)
10	LNAOUT	Signal output terminal of LNA. The RF signal from LNA is output through external matching circuit connected to this terminal. Please connect inductances L3, L4 and power supply as shown in test circuits, since this terminal is also the terminal of LNA power supply.

CAUTION

- 1) Ground terminal (No.3, 7, 9) should be connected to the ground plane as low inductance as possible.

Cautions on using this product

This product contains Gallium-Arsenide (GaAs) which is a harmful material.

- Do NOT eat or put into mouth.
- Do NOT dispose in fire or break up this product.
- Do NOT chemically make gas or powder with this product.
- To waste this product, please obey the relating law of your country.

[CAUTION]

The specifications on this databook are only given for information, without any guarantee as regards either mistakes or omissions. The application circuits in this databook are described only to show representative usages of the product and not intended for the guarantee or permission of any right including the industrial rights.

This product may be damaged with electric static discharge (ESD) or spike voltage. Please handle with care to avoid these damages.

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.
