

Storm EZ-Access™ keypads, developed in association with the Trace Research Center at the University of Wisconsin.

These keypads provide improved accessibility for those with visual or mobility impairment.

The keypads offer a tactile interface to navigate menu based information that would typically be presented via a visual display screen. EZ-Access keypads are often specified as the tactile interface for text-to-speech applications. Such applications are mandated as an accessible, audible, interface for use in kiosks, ATMs, ticketing machines etc.

- Available in standard 5 key, 6 key and 8 key configurations to suit most applications.
- Weather resistant.
- Keytop colours, shapes and tactile symbols make them readily identifiable by both sight and touch.
- Compatible with EZ-Access applications and functionality, including layered help (accessed via the blue diamond shaped help key).
- Codes transmitted by key presses can be set/customised via configuration utility software (for Windows PC).
- Key press confirmation beep can be enabled/disabled and duration set via configuration utility software (for Windows PC).
- Brightness of the audio jack socket illumination can be set via configuration utility software (for Windows PC).
- Configuration, Test Utility Software and APIs can be downloaded from www.storm-interface.com

109.5mm x 95.5mm
5mm Radius Corners
1.6 – 2mm stainless steel panel recommended
Included

EZ-Access Keypads

with audio processor and illuminated audio jack socket

8 Key, USB interface

6 Key, USB interface

5 Key, USB interface

EZ® and EZ Access® are registered trademarks of the University of Wisconsin. To ensure correct function and maximum accessibility by those with sensory or mobility impairment, these EZ-Access keypads are specifically designed for use with appropriate software as part of an approved EZ Access Implementation.

Storm EZ-Access keypads are constructed to survive in exposed or hostile outdoor environments the keypads will withstand heavy use and abuse. They are sealed against the ingress of liquids and dust to survive regular wash down and sanitation procedures. EZ-Access keypads feature an integral USB interface to ensure hassle free, single cable connection to the host system. (Please note: the USB cable is supplied separately).

The keypads include an advanced audio processor and illuminated 3.5mm audio jack socket. This to facilitate connection of a headset or handset device. These fully integrated audio equipped keypads enumerate as a combination Advanced Audio and HID Keyboard device, eliminating any requirement for specialised interface software.

Whilst every effort is made to ensure details are correct at time of print, specifications are subject to change without notice.

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.

С нами вы становитесь еще успешнее!
