

IS31AP4991A 1.1W AUDIO POWER AMPLIFIER WITH ACTIVE-LOW SHUTDOWN MODE

DESCRIPTION

The IS31AP4991A has been designed for demanding audio applications such as mobile phones and permits the reduction of the number of external components. It is capable of delivering 1.1W of continuous RMS output power into an 8Ω load @ 5V.

An externally-controlled standby mode reduces the supply current to much less than 1μA. It also includes internal thermal shutdown protection. The unity-gain stable amplifier can be configured by external gain setting resistors.

FEATURES

- Operating from $V_{CC} = 2.7V \sim 5.5V$
- 1.1W output power @ $V_{CC} = 5V$, THD+N= 1%, $f = 1kHz$, with 8Ω load
- Ultra-low consumption in standby mode (much less than 1μA)
- 56dB PSRR @217Hz in grounded mode
- Near-zero click-and-pop
- Ultra-low distortion (0.074%@0.5W, 1kHz)
- SOP-8 and MSOP-8 package

QUICK START

Figure 1: Photo of IS31AP4991A Evaluation Board (MSOP-8)

Figure 2: Photo of IS31AP4991A Evaluation Board (SOP-8)

RECOMMENDED EQUIPMENT

- 5.0V, 1A power supply
- Audio source (i.e. MP3 player, Notebook PC, etc.)
- 8Ω speakers

ABSOLUTE MAXIMUM RATINGS

- $\leq 5.5V$ power supply

Caution: Do not exceed the conditions listed above, otherwise the board will be damaged.

PROCEDURE

The IS31AP4991A evaluation board is fully assembled and tested. Follow the steps listed below to verify board operation.

Caution: Do not turn on the power supply until all connections are completed.

- 1) Connect an 8Ω (or larger) speaker across the OUT- terminal and OUT+ terminal. Or connect speaker to the connector (SPK).
- 2) Connect the ground terminal of the power supply to the GND and the positive terminal to the VCC. Or connect DC power to the connector (DC IN).
- 3) If the audio source is differential, connect the negative of the audio source to the IN- terminal, and connect the positive of the audio source to IN+ terminal.
- 4) If the audio source is single-ended, C3 and R1 should disconnect, and R3 should be 0Ω. Connect the audio source to the IN- terminal, or connect audio source to the connector (AUDIO IN).
- 5) Turn on the power supply.
- 6) Turn on the audio source.

EVALUATION BOARD OPERATION

The IS31AP4991A demo board features the IS31AP4991A Class-AB power amplifier IC, designed to drive speaker impedance of 8Ω or larger.

CUSTOMIZING THE GAIN

The IS31AP4991A demo board is shipped with a gain of 6dB and is set by resistors R_I (R_1 , R_2) and R_F (R_3 , R_4). Change resistors R_I and R_F to reconfigure the gain of the board and gain determined in Equation (1):

$$Gain = \frac{2 \times R_F}{R_I} \left(\frac{V}{V} \right) \quad (1)$$

HIGH-PASS FILTER

The input capacitor C_1 (C_3 , C_4) and input resistor R_I (R_1 , R_2) form a high-pass filter with the corner frequency, f_c , determined in Equation (2) and refer to IS31AP4991A datasheet for more detail.

$$f_c = \frac{1}{(2\pi R_I C_1)} \quad (2)$$

SHUTDOWN MODE

Jumper (JP1) controls the shutdown pin of the IS31AP4991A IC. Connect the jumper (JP1) to enter the shutdown mode of the board.

Стандарт Электрон Связь

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.

С нами вы становитесь еще успешнее!
