

3000 Series Thermostats in Vehicle Fire Suppression Applications

BACKGROUND

A fire resulting from a vehicle collision may lead to death because it becomes impossible to escape the burning vehicle. An effective fire suppression system helps to reduce fatalities in these situations.

SOLUTION

Honeywell manufactures the 3000 Series Thermostats (see Table 1), a range of rugged, sealed thermostats, that signal when a certain temperature has been reached. In an automatic fire suppression system, the thermostat signals the system to discharge in the event of a fire.

When the thermostat ambient temperature reaches the rated temperature, the switch contacts close, completing the electrical circuit which triggers the system actuator. When the thermostat cools, the contacts reopen, which resets the thermostat to its normal operation condition.

At least one thermostat is installed in each protected area of the vehicle (see Figure 1). The four-conductor configuration allows continuous integrity monitoring of all circuits connecting the thermostats.

Features and Benefits
<ul style="list-style-type: none"> • Stainless steel housing provides enhanced resistance to corrosion and harsh, under-the-hood chemicals • Sealed construction designed to prevent water ingress • Configurable operating point may be tailored to application requirements up to 232 °C [450 °F] • Enhanced response for reduced deployment time • Enhanced reliability for potentially maintenance-free operation • Flexible mounting bracket allows multiple installation sites for the same product

WARNING

PERSONAL INJURY

DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

Failure to comply with these instructions could result in death or serious injury.

WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective. The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.

WARNING

MISUSE OF DOCUMENTATION

- The information presented in this application note is for reference only. Do not use this document as a product installation guide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.

SALES AND SERVICE

Honeywell serves its customers through a worldwide network of sales offices, representatives and distributors. For application assistance, current specifications, pricing or name of the nearest Authorized Distributor, contact your local sales office or:

Honeywell

Стандарт Электрон Связь

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.

С нами вы становитесь еще успешнее!
