

## Automotive single-line Transil™, transient voltage suppressor (TVS) for LIN bus

Datasheet - production data

Figure 1. Functional schematic

### Complies with the following standards

- ISO 10605 - C = 150 pF, R = 330  $\Omega$  :
  - $\pm 30$  kV (air discharge)
  - $\pm 30$  kV (contact discharge)
- ISO 10605 - C = 330 pF, R = 330  $\Omega$  :
  - $\pm 30$  kV (air discharge)
  - $\pm 30$  kV (contact discharge)
- ISO 7637-3:
  - Pulse 3a:  $V_s = -150$  V
  - Pulse 3b:  $V_s = +100$  V

### Application

LIN bus lines where electrostatic discharge and other transients must be suppressed. This product is compliant with most of automotive interfaces.

### Description

The ESDLIN03-1BWY is a single-line Transil specifically designed for the protection of the automotive LIN bus lines against electrostatic discharge (ESD) and transient voltages.

### Features

- Single-line ESD and EOS protection
- Stand-off voltage: 26.5 V
- Bidirectional device
- Max pulse power: 250 W (8/20  $\mu$ s)
- Low clamping factor  $V_{CL} / V_{BR}$
- Low leakage current
- ECOPACK®2 compliant component
- AEC-Q101 qualified

TM: Transil is a trademark of STMicroelectronics

# 1 Characteristics

Table 1. Absolute maximum ratings ( $T_{amb} = 25^{\circ}\text{C}$ )

| Symbol    | Parameter                                          |                                            | Value       | Unit               |
|-----------|----------------------------------------------------|--------------------------------------------|-------------|--------------------|
| $V_{PP}$  | Electrostatic discharge capability                 | ISO 10605 - C = 150 pF, R = 330 $\Omega$ : |             | kV                 |
|           |                                                    | Contact discharge                          | 30          |                    |
|           |                                                    | Air discharge                              | 30          |                    |
|           |                                                    | ISO 10605 - C = 330 pF, R = 330 $\Omega$ : |             |                    |
|           |                                                    | Contact discharge                          | 30          |                    |
|           |                                                    | Air discharge                              | 30          |                    |
|           |                                                    | HBM MIL STD 883                            | 30          |                    |
| $P_{PP}$  | Peak pulse power dissipation (8/20 $\mu\text{s}$ ) | $T_j \text{ initial} = T_{amb}$            | 250         | W                  |
| $I_{PP}$  | Peak pulse current (8/20 $\mu\text{s}$ )           |                                            | 3.7         | A                  |
| $T_j$     | Operating junction temperature range               |                                            | -55 to +175 | $^{\circ}\text{C}$ |
| $T_{stg}$ | Storage temperature range                          |                                            | -55 to +175 | $^{\circ}\text{C}$ |

## 2 Package information

- Epoxy meets UL94, V0
- Lead-free packages

In order to meet environmental requirements, ST offers these devices in different grades of ECOPACK<sup>®</sup> packages, depending on their level of environmental compliance. ECOPACK<sup>®</sup> specifications, grade definitions and product status are available at: [www.st.com](http://www.st.com). ECOPACK<sup>®</sup> is an ST trademark.

### 2.1 SOT323-3L package information

Figure 13. SOT323-3L package outline

Table 3. SOT323-3L package mechanical data

| Ref. | Dimensions  |      |      |                       |       |       |
|------|-------------|------|------|-----------------------|-------|-------|
|      | Millimeters |      |      | Inches <sup>(1)</sup> |       |       |
|      | Min.        | Typ. | Max. | Min.                  | Typ.  | Max.  |
| A    | 0.8         |      | 1.1  | 0.031                 |       | 0.043 |
| A1   | 0.0         |      | 0.1  | 0.0                   |       | 0.004 |
| b    | 0.25        |      | 0.4  | 0.01                  |       | 0.016 |
| c    | 0.1         |      | 0.26 | 0.004                 |       | 0.01  |
| D    | 1.8         | 2.0  | 2.2  | 0.071                 | 0.079 | 0.086 |
| E    | 1.15        | 1.25 | 1.35 | 0.045                 | 0.049 | 0.053 |
| e    |             | 0.65 |      |                       | 0.026 |       |
| H    | 1.8         | 2.1  | 2.4  | 0.071                 | 0.083 | 0.094 |
| L    | 0.1         | 0.2  | 0.3  | 0.004                 | 0.008 | 0.012 |
| Θ    | 0           |      | 30°  | 0                     |       | 30°   |

1. Values in inches are converted from mm and rounded to 4 decimal digits.

Figure 14. SOT323-3L footprint dimensions in mm (inches)

## 2.2 PCB design preference

1. To control the solder paste amount, the closed via is recommended instead of open vias.
2. The position of tracks and open vias in the solder area should be well balanced. The symmetrical layout is recommended, in case any tilt phenomena caused by asymmetrical solder paste amount due to the solder flow away.

## 2.3 Reflow profile

**Figure 15. ST ECOPACK® recommended soldering reflow profile for PCB mounting**

*Minimize air convection currents in the reflow oven to avoid component movement.  
Maximum soldering profile corresponds to the latest IPC/JEDEC J-STD-020.*

### 3 Ordering information

Figure 16. Ordering information scheme

Table 4. Ordering information

| Order code    | Marking | Package    | Weight  | Base qty | Delivery mode |
|---------------|---------|------------|---------|----------|---------------|
| ESDLIN03-1BWY | C12     | SOT-323-3L | 6.58 mg | 3000     | Tape and reel |

### 4 Revision history

**Стандарт  
Электрон  
Связь**

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.

С нами вы становитесь еще успешнее!
