

# TTL Compatible CMOS Analog Switches

**DG300(A)/DG301(A)/DG302(A)/DG303(A)**

## General Description

Maxim's DG300-DG303 and DG300A-DG303A CMOS dual and quad analog switches combine low power operation with fast switching times and superior DC and AC switch characteristics. On-resistance is less than  $50\Omega$  and is essentially constant over the analog signal range. Device specifications are ideal for battery-powered circuitry.

These switches are available in a variety of formats as outlined in the *Pin Configurations* section. The switch control logic inputs are fully TTL and CMOS compatible. Also featured are "break-before-make" switching and low charge injection.

Maxim's DG300-DG303 and DG300A-DG303A families are electrically compatible and pin compatible with the original manufacturer's devices. All devices operate with power supplies ranging from  $\pm 5V$  to  $\pm 18V$ . Single-supply operation is implemented by connecting V- to GND.

## Applications

- Portable Instruments
- Low-Power Sample/Holds
- Power-Supply Switching
- Programmable Gain Amplifiers
- SPDT and DPDT Functions
- Process Control and Telemetry

## Features

- ♦ Monolithic Low-Power CMOS
- ♦ Latchup Proof Construction
- ♦ Fully Compatible 2nd Source
- ♦ Low On-Resistance,  $<50\Omega$
- ♦ Fast Switching Time
- ♦ V+ to V- Analog Signal Range
- ♦ Single-Supply Capability

## Ordering Information

# TTL Compatible CMOS Analog Switches

## ELECTRICAL CHARACTERISTICS (Over Temperature) (continued)

( $V_+ = +15V$ ,  $V_- = -15V$ , GND = 0V,  $T_A$  = Over Temperature Range, unless otherwise noted.)

**Note 1:** Signals on  $S_x$ ,  $D_x$ , or  $I_{N_x}$  exceeding  $V_+$  or  $V_-$  are clamped by internal diodes. Limit diode forward current to maximum current ratings.

**Note 2:** The algebraic convention whereby the most negative value is a minimum, and the most positive value is a maximum is used in this data sheet.

**Note 3:** Typical values are for DESIGN AID ONLY, not guaranteed nor subject to production testing.

**Note 4:** OFF-isolation =  $20 \log \frac{V_S}{V_D}$ ,  $V_S$  = input to OFF switch,  $V_D$  = output.

## Typical Operating Characteristics

( $T_A = +25^\circ C$ , unless otherwise noted.)

Input Logic Levels	0.8V, 4.0V	0.8V, 4.0V	0.8V, 4.0V	0.8V, 4.5V

## Applications Information

All DG300 family switches will operate with  $\pm 5\text{V}$  to  $\pm 15\text{V}$  power supplies. They can also be used with single-ended power supplies ranging from  $+10\text{V}$  to  $+30\text{V}$  where the V- terminal is connected to ground. In either case, analog signals ranging from V<sub>+</sub> to V<sub>-</sub> can be switched.

The on-resistance variation with analog signal and supply voltage is shown in the *Typical Operating Characteristics*. The temperature coefficient of R<sub>ON</sub> is typically  $0.5\%/\text{°C}$ . Typical on-resistance matching from channel to channel is 10%. In addition, Table 1 outlines some typical parameters for single-supply operation.

**Table 2. Charge Injection ( $\pm 15\text{V}$  Supplies)**

ANALOG INPUT (V)	INJECTED Q (pC)
+10	4
+5	8
0	12
-5	8
-10	5

The charge injection test circuit is shown in Figure 1. Table 2 lists the typical injected charge for DG300 series switches with various input voltages.

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.

С нами вы становитесь еще успешнее!
