

Low Skew Output Buffer

FEATURES

- Frequency range 25 ~ 60MHz.
- Internal phase locked loop will allow spread spectrum modulation on reference clock to pass to the outputs (up to 100kHz SST modulation).
- Zero input - output delay.
- Less than 700 ps device - device skew.
- Less than 250 ps skew between outputs.
- Less than 150 ps cycle - cycle jitter.
- Output Enable function tri-state outputs.
- 3.3V operation.
- Available in 8-Pin 150mil SOIC.

PIN CONFIGURATION

Remark

If REF clock is stopped for more than 10us after it has already been provided to the chip, and after power-up, the output clocks will disappear. In that instance, a full power-up reset is required in order to reactivate the output clocks.

DESCRIPTION

The PLL102-05 is a high performance, low skew, low jitter zero delay buffer designed to distribute high speed clocks and is available in 8-pin SOIC package. It has four outputs that are synchronized with the input. The synchronization is established via CLKOUT feed back to the input of the PLL. Since the skew between the input and output is less than ± 350 ps, the device acts as a zero delay buffer.

PIN DESCRIPTIONS

Name	Number	Type	Description
REF ¹	1	I	Input reference frequency. Spread spectrum modulation on this signal will be passed to the output (up to 100kHz SST modulation).
CLK2 ²	2	O	Buffered clock output.
CLK1 ²	3	O	Buffered clock output.
GND	4	P	Ground.
CLK3 ²	5	O	Buffered clock output.
VDD	6	P	3.3V Power Supply.
CLK4 ²	7	O	Buffered clock output.
CLKOUT ²	8	O	Buffered clock output. Internal feed back on this pin.

Notes: 1: Weak pull-down. 2: Weak pull-down on all outputs.

Exposure of the device under conditions beyond the limits specified by Maximum Ratings for extended periods may cause permanent damage to the device and affect product reliability. These conditions represent a stress rating only, and functional operations of the device at these or any other conditions above the operational limits noted in this specification is not implied.

* Note: Operating Temperature is guaranteed by design for all parts (COMMERCIAL and INDUSTRIAL), but tested for COMMERCIAL grade only.

Output-Output Skew

The skew between CLKOUT and the CLK(1-4) outputs is not dynamically adjusted by the PLL. Since CLKOUT is one of the inputs to the PLL, zero phase difference is maintained from REF to CLKOUT. If all outputs are equally loaded, zero phase difference will be maintained from REF to all outputs.

If applications requiring zero output-output skew, all the outputs must be equally loaded.

If the CLK(1-4) outputs are less loaded than CLKOUT, CLK(1-4) outputs will lead it; if the CLK(1-4) is more loaded than CLKOUT, CLK(1-4) will lag the CLKOUT.

Since the CLKOUT and the CLK(1-4) outputs are identical, they all start at the same time, but difference loads cause them to have different rise times and different times crossing the measurement thresholds.

REF input and all outputs loaded equally

REF input and CLK(1-4) outputs loaded equally, with CLK(1-4) less loaded than CLKOUT.

REF input and CLK(1-4) outputs loaded equally, with CLK(1-4) more loaded than CLKOUT.

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.

С нами вы становитесь еще успешнее!
