

## Corcom EMI/RFI Filter Product Overview

TE Connectivity offers over 300 solutions for EMI/RFI problems associated with susceptibility, as well as compliance with international emissions standards. Corcom filters are available in a wide range of single and 3-phase designs as well as IEC inlet and power entry modules which can combine several functions to reduce cost, space and labor. Solutions are also available for DC applications and applications requiring extremely high performance with feedthrough filters and capacitors for a wide range of applications.

**FILTER TYPE** POWER LINE FILTERS

**R Series      EBP, EDP, EOP Series      WG Series      X, Y & Z Series**

**General Purpose      Wide Range Performance**

UL / CSA / VDE      UL / CSA / VDE      UL / CSA / VDE      UL / CSA / VDE

**Two-stage general purpose RFI power line filter**

- Dual T section RFI filter provides premium performance
- Well suited for low impedance loads where noisy RFI environments are present
- Controls pulsed, continuous and/or intermittent interference
- ER model offers low leakage current without deterioration of insertion loss

**PC board mountable general purpose RFI filters**

- General purpose
- Low leakage current
- Cost-effective
- Compact size
- EDP model features enhanced differential mode performance
- EBP model features compact size (less than 1" square)

**High performance, low cost filter ideal for appliance equipment**

- Cost effective
- Tubular design
- WGD, WGE and WGF versions designed to comply with leakage current requirements for appliances which may be easily moved from one place to another
- Available in a variety of styles

**Chassis or PC Board Mountable Power Line Filters for Emission Control**

- Compact chassis or PC board mountable
- Three levels of performance
- Complete filtering solution in minimal size
- X Series for FCC Part 15J, Class B
- Y Series for EN55022, Level A
- Z Series for EN55022, Level B
- Medical version available in the HZ Series

250 VAC      250 VAC      250 VAC      250 VAC

Universal filter for applications with low impedance loads including:

- Motors
- Semiconductor actuators
- Home appliances
- Gaming machines
- Exercise equipment
- Security systems
- Industrial equipment & controls

Designed for PCB mounting for a wide range of applications including:

- Gaming machines
- Cash terminals
- Office equipment
- Small consumer electronics
- TV / Audio / Video
- Computing & accessories

Specially designed for the white goods / appliance market. Offers wide band RFI suppression for many applications including:

- Washing machines / dryers
- Dishwashers
- Refrigerators & freezers
- Coffee Machines
- Hand held appliances & tools
- Ovens & ranges

RFI filter designed to bring most digital equipment (including those with switching power supplies) into compliance with EN55022, Level A or B and FCC Part 15J, Class B conducted emission limits. Ideal for all applications with limited space including:

- Switching Power Supplies
- Industrial single phase applications

FFA, FFD, AFC, AFD Series

← Superior Performance ————— General & High Purpose ————— Superior Performance →

UL / CSA / VDE                      UL / CSA                      UL / CSA / VDE                      Superior Performance

**High Performance RFI Power Line Filters for Switching Power Supplies**

- Superior common-mode and premium differential-mode attenuation
- Smaller package sizes than the EP Series
- ET models with low leakage current
- Medical versions available in the HT Series

250 VAC

3, 6, 10, 15 & 20A

.3 mA / .5 mA (*ET models*)  
.75 mA / 1.2 mA (*VT models*)

Single (3-10A) & Dual stage (10-20A)  
*(medical versions without y-capacitors)*

Screw mounting

.25 [6.3] spade terminals, wire leads, terminal bolt & nut, or IEC 60320-1 C14

.25 [6.3] spade terminals, wire leads, or terminal bolt & nut

Wide band attenuation for applications with very high RFI emissions including:

- Consumer electronics
- Single phase industrial applications
- Drive motors and controllers
- Commercial & building equipment

**High Frequency Power Line Filter or Power Entry Module**

- High common and differential mode performance from 10kHz to 1GHz
- Available with an IEC inlet, fuseholder and switch
- Suitable for applications where computers are used to process secret or confidential information

250 VAC

3, 6, 10, 15 & 20A

1.2 mA / 2.3 mA (*3A models*)  
.7 mA / 1.2 mA (*6A models*)

Multi stage

Screw mounting (flange or panel)

Wire leads

Wire leads, or IEC 60320-1 C14

Ideal filter series for hardened applications where computers are used to process secret or confidential information.

**DC filters available in a wide variety of versions for DC system RFI issues**

- DA Series - Compact RFI Line Filter with DC Inlet Connection
- DB Series - High Current DC Inlet Filter and Connectors
- DC Series - General purpose line filters for DC applications up to 125VDC with many options
- P Series - adaptable power entry module for DC rated applications

125 VDC (*DA, DB*) & 80VDC (*DC, P*)

3, 6, 10 & 15A (*DA Series*)  
60A (*DB Series*), 3 & 6A (*P Series*)  
15, 30, 60, 100 & 125A (*DA Series*)

General & High Purpose

Screw mounting & snap-in

Spade terminals, PCB pins, wire leads, DA or DCB connector, or terminal bolt & nut

Spade terminals, PCB pins, wire leads, DA or DCB connector, or terminal bolt & nut

- Network routing equipment
- Servers
- Switching equipment
- Wireless cabinets
- Ethernet hubs
- Base stations
- Repeater stations
- Power supplies for all types of communications equipment

**AC & DC rated feedthrough filters and capacitors for highest rated performance**

- FFA (AC rated) & FFD (DC rated) feedthrough filters
- AFC (AC rated) & AFD (DC rated) feedthrough capacitors
- Offers high reliability & performance for high frequency applications
- Custom versions available

250 VAC / 130 VDC

10 to 300A (*FFA/AFC/DFC*)  
10 to 200A (*FFD*)

Superior Performance

Screw mounting

Screw terminal

Screw terminal

Universal applications including;

- Servers and routers
- Base stations
- Transportation
- Telecom
- MRI rooms
- High current switch mode power supplies
- Military and aerospace

**POWER ENTRY MODULES** *(Continued)*

**CU Series      GG & HG Series      P Series      EJT Series**

← **General Purpose** → **Superior Performance**

UL / CSA / VDE\*      UL / CSA / VDE      UL / CSA / VDE      UL / CSA / VDE\*

**Compact 1U Height Switched Power Entry Module**

- Designed for popular 1U (1 ¾") height rack mounted equipment
- Two function power entry module combining a SPST switch and an IEC 60320-1 inlet
- Snap-in, flange and flush mounting
- Reduce OEM wiring time with optional pre-connected line and switch terminals

**Smallest Power Entry Module with Metric Fuse Holders**

- Single or dual fusing
- Two element circuit provides basic attenuation
- Available with an internal ground-circuit inductor (C versions) to isolate equipment chassis from power line ground at radio frequencies
- Multiple termination and mounting styles
- Medical version as the HG Series identical to GG with dual fuse only

**Versatile Power Entry Module with Small Footprint**

- Snap-in or flange mounting
- Standard IEC 60321-1 C14 power inlet
- Both North American and metric fusing capabilities
- Two voltage selection options
- Optional DPST on/off switch
- Filter options for general purpose, medical and high-performance EMI filtering

**High Performance Power Inlet Filter**

- Superior EMI filter with IEC 60320-1 inlet
- Double three element differential mode circuit attenuates noise up to 1GHz
- Up to 15A with IEC 60320-1 C14
- 20A rating with IEC 60320-1 C20
- Spade terminals or wire leads

250 VAC      250 VAC      250 VAC      250 VAC

1, 3, 6, 10 or 15A\*      1, 3, 6 & 10A      3, 6 & 10A Filtered, 10A non-filtered      1, 3, 6, 10 or 15A

Filtered models: .25 mA / .40 mA      HG Models: 2 µA / 5 µA      H & L Models: 2 µA / 5 µA      .21 mA / .36 mA  
 Non-filtered models: 2 µA / 5 µA      GG Models: .25 mA / .42 mA      S & Z Models: .25 mA / .50 mA

Single stage & unfiltered      Single stage *(medical versions without y-capacitors)*      Single stage      Dual stage

Screw and snap-in mounting      Screw and snap-in mounting      Screw and snap-in mounting      Screw and snap-in mounting

IEC 60320-1 C14      IEC 60320-1 C14      IEC 60320-1 C14      IEC 60320-1 C14 or C20

.187 [4.8] spade terminals      .25 [6.3] spade terminals or wire leads      .187 [4.8] spade terminals *(standard)* or .25 [6.3] spade terminals *(L & Z)*      .25 [6.3] spade terminals or wire leads

Available with or without pre-connected switch terminals      Available with or without interconnection block for unfiltered versions

Specially designed for 1U height equipment racks and can be used in space limited applications including:

- Telecom
- Computing
- TV / Audio / Video
- Consumer electronics

\*15A versions are tested by UL to US and Canadian requirements and are VDE approved at 10A

Wide band RFI suppression for applications with very limited space including:

- TV / Audio / Video
- Computing & accessories
- Home appliances
- Medical equipment
- Gaming equipment
- Fitness equipment

Wide band RFI suppression in over 8000 configurations for a wide range of applications including:

- TV / Audio / Video
- Computing & accessories
- Home appliances
- Medical equipment
- Gaming equipment
- Fitness equipment
- HVAC

Specially designer to attenuate noise in the high frequency range up to 1GHz for various electronic applications including:

- Plasma & LCD TV's
- Computing & accessories
- Instrumentation & measurement

\*15A versions are tested by UL to US and Canadian requirements and are VDE approved at 10A

## Стандарт Электрон Связь

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.

С нами вы становитесь еще успешнее!
