## **BLF544** UHF power MOS transistor

Product specification  
Supersedes data of 1998 Jan 21

2003 Sep 18

UHF power MOS transistor

BLF544

FEATURES

- High power gain
- Easy power control
- Good thermal stability
- Gold metallization ensures excellent reliability
- Designed for broadband operation.

APPLICATIONS

- Communication transmitters in the UHF frequency range.

DESCRIPTION

N-channel enhancement mode vertical D-MOS power transistor encapsulated in a 6-lead, SOT171A flange package with a ceramic cap. All leads are isolated from the flange.

A marking code showing gate-source voltage ( $V_{GS}$ ) information is provided for matched pair applications.

PINNING - SOT171A

| PIN | DESCRIPTION |
|-----|-------------|
| 1   | source      |
| 2   | source      |
| 3   | gate        |
| 4   | drain       |
| 5   | source      |
| 6   | source      |

QUICK REFERENCE DATA

RF performance at  $T_h = 25\text{ }^{\circ}\text{C}$  in a common source class-B circuit.

| MODE OF OPERATION | f<br>(MHz) | $V_{DS}$<br>(V) | $P_L$<br>(W) | $G_p$<br>(dB) | $\eta_D$<br>(%) |
|-------------------|------------|-----------------|--------------|---------------|-----------------|
| CW, class-B       | 500        | 28              | 20           | >11           | >50             |
| CW, class-B       | 960        | 28              | 20           | typ. 7        | typ. 50         |

CAUTION

This product is supplied in anti-static packing to prevent damage caused by electrostatic discharge during transport and handling. For further information, refer to Philips specs.: SNW-EQ-608, SNW-FQ-302A and SNW-FQ-302B.

WARNING

Product and environmental safety - toxic materials

This product contains beryllium oxide. The product is entirely safe provided that the BeO disc is not damaged. All persons who handle, use or dispose of this product should be aware of its nature and of the necessary safety precautions. After use, dispose of as chemical or special waste according to the regulations applying at the location of the user. It must never be thrown out with the general or domestic waste.

| CW, class-B       | 960     | 24           | 40            | 15        | typ. 7         | typ. 50        |

Ruggedness in class-B operation

The BLF544 is capable of withstanding a full load mismatch corresponding to  $VSWR = 50 : 1$  through all phases under the following conditions:  $V_{DS} = 28\text{ V}$ ;  $f = 500\text{ MHz}$  at rated output power.

UHF power MOS transistor

BLF544

Class-B operation;  $V_{DS} = 28\text{ V}$ ;  $I_{DQ} = 40\text{ mA}$ ;  
 $Z_L = 4.3 + j6.3\ \Omega$ ;  $f = 500\text{ MHz}$ .

## Notes

1. American Technical Ceramics (ATC) capacitor, type 100B or other capacitor of the same quality.
2. American Technical Ceramics (ATC) capacitor, type 100A or other capacitor of the same quality.
3. The striplines are on a double copper-clad printed circuit board, with glass microfibre reinforced PTFE ( $\epsilon_r = 2.2$ ); thickness  $\frac{1}{32}$  inch.

## UHF power MOS transistor

BLF544

MDA501

Dimensions in mm.

The circuit and components are situated on one side of the printed circuit board, the other side being fully metallized, to serve as a ground plane. Earth connections are made by means of copper straps and hollow rivets for a direct contact between upper and lower sheets.

Fig.12 Component layout for 500 MHz class-B test circuit.

## Notes

1. American Technical Ceramics (ATC) capacitor, type 100B or other capacitor of the same quality.
2. American Technical Ceramics (ATC) capacitor, type 100A or other capacitor of the same quality.
3. The striplines are on a double copper-clad printed-circuit board with glass microfibre reinforced PTFE ( $\epsilon_r = 2.2$ ); thickness  $\frac{1}{32}$  inch.

## UHF power MOS transistor

## BLF544

Class-B operation;  $V_{DS} = 28$  V;  $I_{DQ} = 40$  mA;  $P_L = 20$  W.

Fig.14 Input impedance as a function of frequency (series components); typical values.

Class-B operation;  $V_{DS} = 28$  V;  $I_{DQ} = 40$  mA;  $P_L = 20$  W.

Fig.15 Load impedance as a function of frequency (series components); typical values.

Class-B operation;  $V_{DS} = 28$  V;  $I_{DQ} = 40$  mA;  $P_L = 20$  W.

Fig.16 Power gain as a function of frequency; typical values.

### Optimum input and load impedances

Optimum input impedance:  $1.2 + j4.8 \Omega$ .

Optimum load impedance:  $2.6 - j3.1 \Omega$ .

Conditions: class-B operation;  $V_{DS} = 24$  V;  
 $I_{DQ} = 40$  mA;  $f = 960$  MHz;  $P_L = 15$  W; typical values.

## DATA SHEET STATUS

| LEVEL | DATA SHEET STATUS <sup>(1)</sup> | PRODUCT STATUS <sup>(2)(3)</sup> | DEFINITION                                                                                                                                                                                                                                                                                     |
|-------|----------------------------------|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| I     | Objective data                   | Development                      | This data sheet contains data from the objective specification for product development. Philips Semiconductors reserves the right to change the specification in any manner without notice.                                                                                                    |
| II    | Preliminary data                 | Qualification                    | This data sheet contains data from the preliminary specification. Supplementary data will be published at a later date. Philips Semiconductors reserves the right to change the specification without notice, in order to improve the design and supply the best possible product.             |
| III   | Product data                     | Production                       | This data sheet contains data from the product specification. Philips Semiconductors reserves the right to make changes at any time in order to improve the design, manufacturing and supply. Relevant changes will be communicated via a Customer Product/Process Change Notification (CPCN). |

## Notes

1. Please consult the most recently issued data sheet before initiating or completing a design.
2. The product status of the device(s) described in this data sheet may have changed since this data sheet was published. The latest information is available on the Internet at URL <http://www.semiconductors.philips.com>.
3. For data sheets describing multiple type numbers, the highest-level product status determines the data sheet status.

## DEFINITIONS

**Short-form specification** — The data in a short-form specification is extracted from a full data sheet with the same type number and title. For detailed information see the relevant data sheet or data handbook.

**Limiting values definition** — Limiting values given are in accordance with the Absolute Maximum Rating System (IEC 60134). Stress above one or more of the limiting values may cause permanent damage to the device. These are stress ratings only and operation of the device at these or at any other conditions above those given in the Characteristics sections of the specification is not implied. Exposure to limiting values for extended periods may affect device reliability.

**Application information** — Applications that are described herein for any of these products are for illustrative purposes only. Philips Semiconductors make no representation or warranty that such applications will be suitable for the specified use without further testing or modification.

## DISCLAIMERS

**Life support applications** — These products are not designed for use in life support appliances, devices, or systems where malfunction of these products can reasonably be expected to result in personal injury. Philips Semiconductors customers using or selling these products for use in such applications do so at their own risk and agree to fully indemnify Philips Semiconductors for any damages resulting from such application.

**Right to make changes** — Philips Semiconductors reserves the right to make changes in the products - including circuits, standard cells, and/or software - described or contained herein in order to improve design and/or performance. When the product is in full production (status 'Production'), relevant changes will be communicated via a Customer Product/Process Change Notification (CPCN). Philips Semiconductors assumes no responsibility or liability for the use of any of these products, conveys no licence or title under any patent, copyright, or mask work right to these products, and makes no representations or warranties that these products are free from patent, copyright, or mask work right infringement, unless otherwise specified.

# ***Philips Semiconductors – a worldwide company***

Мы молодая и активно развивающаяся компания в области поставок электронных компонентов. Мы поставляем электронные компоненты отечественного и импортного производства напрямую от производителей и с крупнейших складов мира.

Благодаря сотрудничеству с мировыми поставщиками мы осуществляем комплексные и плановые поставки широчайшего спектра электронных компонентов.

Собственная эффективная логистика и склад в обеспечивает надежную поставку продукции в точно указанные сроки по всей России.

Мы осуществляем техническую поддержку нашим клиентам и предпродажную проверку качества продукции. На все поставляемые продукты мы предоставляем гарантию .

Осуществляем поставки продукции под контролем ВП МО РФ на предприятия военно-промышленного комплекса России , а также работаем в рамках 275 ФЗ с открытием отдельных счетов в уполномоченном банке. Система менеджмента качества компании соответствует требованиям ГОСТ ISO 9001.

Минимальные сроки поставки, гибкие цены, неограниченный ассортимент и индивидуальный подход к клиентам являются основой для выстраивания долгосрочного и эффективного сотрудничества с предприятиями радиоэлектронной промышленности, предприятиями ВПК и научно-исследовательскими институтами России.

С нами вы становитесь еще успешнее!
